To whom it may concern,

My name is Shuowen Wei, a graduate student currently enrolled in computer science program at Wake Forest University. I earned a M.A. in Mathematics earlier and this is my second master degree. For more information about please refer to my resume attached. I am quite interested in the Web Developer Associate position, that I learned today from the seminar about "DATA TRACKING ON THE WEB", held in Wake Forest University Campus. Having a solid background in mathematics and several experience related to date mining and classification, I think I am quite competitive for this position, especially related to date tracking on the web.

Thanks for your time and consideration.

Sincerely,

Shuowen Wei
