

CSC101 **Fall 2012**
Introduction to Computer Science

Professor: Torgersen **E-mail:** *torgerse@wfu.edu* **Office Phone:** 758-5536

Office Hours: Monday and Wednesday 3:30 to 4:30. Friday 1:00 to 2:00, and by appointment.

Graduate Assistant: Shuowen Wei **e-mail:** *weis11@wfu.edu*

Text: Invitation to Computer Science by G. Michael Schneider and Judith L. Gersting

Web Page: <http://menehune.opt.wfu.edu/csc101>

Objectives: Students will learn fundamental concepts of logical problem solving and algorithm development. They will gain knowledge of the topic areas studied within the field of computer science including:

- algorithm design and analysis,
- data representation,
- computer system organization,
- hardware components such as logic gates and adders
- high level computer languages,
- simple programming (in a high level language),
- fundamental limits of computation (descriptive overview),
- HTML (web pages),
- digital audio, and
- image processing.

Expectations:

1. Class participation.
2. Communicate in class if things get complicated, or there is something you don't understand.
3. Cite your sources.
4. Your best effort.

Grading:

Four exams (65%), weekly lab exercises and take home problem sets (35%).

Disability Notice:

If you have a disability that may require an accommodation for taking this course, then please contact the Learning Assistance Center (758-5929) within the first two weeks of the semester.

Pandemic Planning Notice:

The University has requested that faculty collect personal contact information as part of emergency planning and preparation. The information you provide is strictly confidential.
